

INTERPRETER COMPENSATION BILLING CALCULATOR

Interpreter compensation is limited to actual hours for services performed. Claimed services are to be billed in increments of hours and tenths of an hour, as mandated by the parameters of the CJA Payment System.

Compensation is calculated by multiplying the applicable rate per hour by the total number of hours. Calculate totals for each service category separately, and enter the category and grand totals on the appropriate lines of the voucher.

Below is a table for your reference regarding tenths of an hour billing increments:

MINUTES	REPORTING TIME
1-6	.1
7-12	.2
13-18	.3
19-24	.4
25-30	.5
31-36	.6
37-42	.7
43-48	.8
49-54	.9
55-60	1.0
